

Style 500 Compressed Gasket Sheet

style 500

Style 500 is manufactured from 98% minimum pure graphite with a 0.002" thick 316 stainless steel insert that reduces gasket handling damage and increases pressure resistance. Style 500 has will not cold flow and is recommended for high-temperature and high-pressure applications.

FEATURES & BENEFITS

Style: 500 Compressed Gasket Sheet

Binder: 0.002" Stainless steel insert

Color: Metallic

Pressure: 2,000 psi maximum

pH: 0 - 14

Temperature: from -400° to 850°

Sizes: 60" x 60"

Thicknesses: 1/64", 1/32", 1/16",
3/32", 1/8", 1/4"

"Since the performance of the gasket material depends on many other factors not related to the gasket itself, purchaser is WARNED that the maximum operating conditions shown in the Technical Data Chart may not be achieved under certain conditions. Purchaser is therefore urged to test the gasket material under the actual conditions of assembly and operation to determine the appropriate maximum operating conditions."
