

# ML2254

SEPCO<sup>®</sup> ML2254 PTFE fibers are treated with a PTFE dispersion that fills and seals all voids in the packing body. After braiding, a PTFE coating is applied. This packing will not wick, making it an excellent choice for valves, hatch seals, and inspection port seals.

ML2254

## FEATURES

- Recommended for all severe chemical and corrosive services where an inert packing material is essential
- Excellent valve stem packing for all chemicals and corrosives
- Inert to all fluids

## SPECIFICATIONS

### Temperatures

- 500°F/260°C maximum

### pH Range

- 0 to 14

Certified to ISO 9001:2015 Standards
