

# ML4002

SEPCO<sup>®</sup> ML4002 is 100% GFO<sup>®</sup> Fiber with the W. L. Gore Seal of approval. This compression packing is an excellent, all around packing exhibiting good thermal conductivity characteristics resulting in higher shaft speed, feet-per-minute (fpm) ratings.

ML4002

## FEATURES

Finely ground particles of the highest quality graphite encapsulated in the PTFE matrix to eliminate graphite migration

## SPECIFICATIONS

### Temperatures

- 550°F/288°C maximum

### pH Range

- 0 to 14

### Speeds

- 4400 fpm
