

# ML560 High-Performance Packing

SEPCO® ML560 is a Multi-Lok™ braided high performance packing. In some applications, its high thermal conductivity and lubricity allow ML560 to operate without flush water. This packing is excellent in pumping slurries where the packing experiences premature failure. ML560 is recommended for high speed rotary pumps and slurry service. Pumps and agitators in Pulp and Paper, mining, and other process industries.

## SPECIFICATIONS

### Construction:

- Multi-Lok Braid

### Shaft Speeds:

- Up to 4000 FPM

### Temperatures:

- 850°F / 345°C

### Chemical Compatibility:

- pH range 0-14

Certified to ISO 9001:2015 Standards
